

Charlie Hall
Emerging Leaders Prayer Breakfast
15 March 2025

4 Personal Principles

3 Leadership Principles

Open Discussion / Q & A

Personal Principles I've learned along the way:

1. I'm not a self-made man (John 15:5)
2. I need community to see my blind spots (Proverbs 27:17)
3. Wisdom & growth happens in community/relationship with those who have walked the path (Romans 12:10)
4. Personal & professional progress is a journey, and we need a guide along the way (Psalm 32:8)

Leadership Principles & Progression I've learned along the way:

1. Phase 1 – “Me” focused – be a good example to your team, listen well, look right, set the standard
2. Phase 2 – “Team” focused – once established, now it's about lifting your team – lower yourself in order to raise your team up; talk less, listen more
3. Phase 3 – “Unit/org” focused – learning how your team fits into the bigger organization/company; leading with humility and not being all about you and your small team
3. Phase 4 – “Community/ecosystem” focus – lifting up the bigger ecosystem instead of your own brand, making friends with the competition and growing the market segment instead of you and your brand

What's on your mind?

**What can you help your peer
think through this weekend?**

**How can you lift up this
ecosystem/industry in SC?**

What I'm Excited About

Connecting our veterans and first responders to the local church

Entrepreneurship development and seeding vet businesses

First Responder Support

Telling the story of “Thriving Veterans”
